

Technical Datasheet

Product : DVD-R (Blank DVD Media)

Category : Data Copy Protection

Solution Developed by-

Product Name	DVD-R
Supported Media Type	DVD 4.7 GB
Country of Origin	Israel

Introduction:

TrusCont products enable content owners to secure their content on storage devices such as DVD-R and USB flash memory discs in order to prevent piracy, modification or erase of the secured content.

TrusCont Enhanced DVD-R discs can be recorded and read by standard computers and DVD recorders. TrusCont DVD-R Protection Toolkit is based on Nero Burning Rom and supports a wide range of DVD recorders.

Key Features :

1. Perfect resistance to recording software and hardware
2. Totally transparent to end users (no passwords, no driver installations, etc.)
3. Protected content is useable as long as the original medium is present in a local drive
4. Fully compatible with standard DVD devices and Windows operating systems

OS Support Win 2K, XP, XP 64 Bit, Vista, Vista x64 bit, Server 2003, Windows 7 Beta

File Formats Supported for Protection (Ver 2.0)

Executable	Win 32 EXE.
Text / Documents	PDF , HTML , HTM
Graphics	GIF, JPEG, PNG
Audio / Video	MP3, WMV, WMA, WAV, OGG, AVI, MPG, ASF
Flash Format	SWF

Total Space available **4.7 Gb**

Protection Features

Print	Enable / Disable	
Copy & Paste	Enable / Disable	
DVD to DVD copy	Non Working copy	
DVD to HDD Copy	Non Working copy	
Save to	Disable	
Allow execution from another media	Enable / Disable	(for EXE File only)
Expiry Date	User can set the expiry date	
Individual file Password protection	Enable / Disable	
DVD Entry level Passport protection	Enable / Disable	(for contents only)

Technical Datasheet

Product : USB (Flash Drive)
Category : Data Copy Protection

Solution Developed by-

Product Name	TSFD (Truscont Secured Flash Drive)
Supported Media Type	USB (Flash drive – 2 / 4 / 8/16 Gb)
Country of Origin	Israel

Introduction :

TrusCont products enable content owners to secure their content on storage devices such as DVD-R and USB flash memory discs in order to prevent piracy, modification or erase of the secured content.

TrusCont Secure Flash Drive (TSFD) is an enhanced USB flash memory disk that contains built in security enhancements such as copy protection. Unlike standard USB flash memory disks, the TSFD includes a powerful internal microcontroller, which is programmed to secure the content stored on it.

Key Features :

1. Hardware based software protection
2. Driverless installation
3. No special knowledge required to protect the data
4. Large storage capacity (2 / 4 / 8 up to 16GB)
5. Configurable memory partition - divide the TSFD memory to CDROM / read-only /readwrite partitions.

OS Support Win 2K, XP, XP 64 Bit, Vista, Vista x64 bit, Server 2003, Windows 7 Beta

File Formats Supported for Protection

Executable	Win 32 EXE.
Text / Documents	PDF , HTML , HTM
Graphics	GIF, JPEG, PNG
Audio / Video	MP3, MPEG, WMV, OGG, WMA, ASF, AVI, WAV
Flash Format	SWF

Total Space available

Full Space available

Protection Features

Print	Enable / Disable	
Copy & Paste	Enable / Disable	
USB to USB copy	Non Working copy	
USB to HDD Copy	Non Working copy	
Save to	Disable	
Allow execution from another media	Enable / Disable	(for EXE File only)
Expiry Date	User can set the expiry date	
Individual file Password protection	Enable / Disable	
CD-ROM	Partition Supports Autorun feature	
Data Read / Write	Add / Delete / Append data	
USB Entry level Passport protection	Enable / Disable	(for contents only)
